

STARTNow: Pathway

We spend so much of our time working, we often don't get the chance to step back, reflect, and define what it is we want and need for our future. Taking a small amount of time to focus on your career design can be critical to finding happiness in your work. **START NOW!**

“THIS PROCESS REALLY HELPED CLEAR MY HEAD ON MY OPTIONS AND MAKE SOME DECISIONS ABOUT WHAT TO DO NEXT, AND WHERE TO START. THANKS FOR YOUR CHALLENGING QUESTIONS!”

Janine, 34

WHO IT'S FOR:

Pathway is ideal for people looking to make a change, and are exploring options for a new job or career and seeking fast validation that they are on the right path. You will be open to being challenged but keen to make a decision and get started quickly.

WHY PATHWAY:

Pathway offers a fast, practical, facilitated process to enable you to evaluate your ideas, have them challenged and make decisions to move forward with. It helps you 'get outside your head' and have someone to share your ideas, challenges and beliefs with. Once a pathway is chosen, you will have a clear set of action steps to move forward with.

THE VALUE FOR YOU IS:

- ▶ You will have clarity on what you need to change to be happier;
- ▶ You will have explored a range of options - including some you may not have thought of - and chosen a direction;
- ▶ You will have some concrete steps for how to move forward and know what to do first;
- ▶ Work with an external experienced facilitator to challenge you and help “unpack your brain” - validating your thinking and bringing confidence to your new direction.

PRICE:

\$395 for a 1-to-1 facilitated session;

\$250 for a group session, plus a 1-to-1 follow up.

**Prices include GST. T's & C's apply*

WHAT'S INVOLVED:

90 minute virtual facilitation session held over Skype, Facetime or Google Hangouts - no need to leave your home! You'll be guided through a proven 3-step process:

- ▶ Understanding where you are now, what's working, what's not and why
- ▶ What your options are, which pathway is right for you, right now
- ▶ What you need to do to get started.
